Broadcasting's
blatant disregard
for the public
interest in using
our airwaves to
promote their own
political agenda is
disturbing to say
the least.

I do believe if they
move forward with
their decision to
force their stations
to actually pre-empt
normal programming
for the sole purpose
of defaming a US
Presidential
candidate, then any
of its stations that
do so, should have
their application
for license renewal
be rejected.
